

Revolution in Field Service Management

kontron

Kontron FSM Mobile App – Always Ready, Online & Offline.

Automated workflows, transparent processes, and intuitive usability boost the efficiency and speed of your service operations. Everything your team needs – combined in one powerful mobile app!

Easy Set-up & Start

- › **Work Without Limits:** Reliable performance anytime – online or offline.
- › **Simple Login:** Use password or biometrics. Your existing PC/laptop password can be used directly – no additional password required.
- › **All at a Glance:** Intuitive dashboard and automated processes.

The Entire Workflow in One App

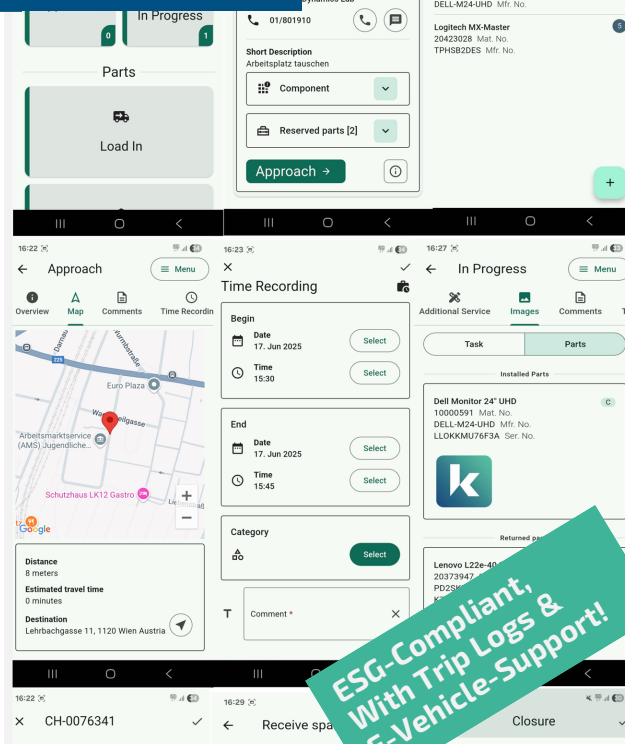

- › **Job Overview:** Complete transparency from planning to completion – always traceable.
- › **Smart Inventory Management:** QR code scanning, flexible warehouse control, and seamless tracking.
- › **Digital Signatures & Delivery Notes:** Approve labor and materials digitally and automatically generate delivery confirmations.
- › **Mobile Data Capture:** Record job details on-site – including photos, notes, checklists, and forms – and continue using the data seamlessly.

Automate & Optimize

- › **Time Tracking:** Manage time automatically or manually for all activities.
- › **Navigation:** GPS and optional real-time location tracking for optimal orientation.
- › **Notifications:** Automated push notifications about changes in the job process.

Smarter FSM starts here – experience it now!
